

#### Todd Redwood

Global Food and Retail Supply Chain Operations and Compliance Director

# Our presenter

Todd Redwood

Global Food and Retail Supply Chain Operations and Compliance Director, BSI Group

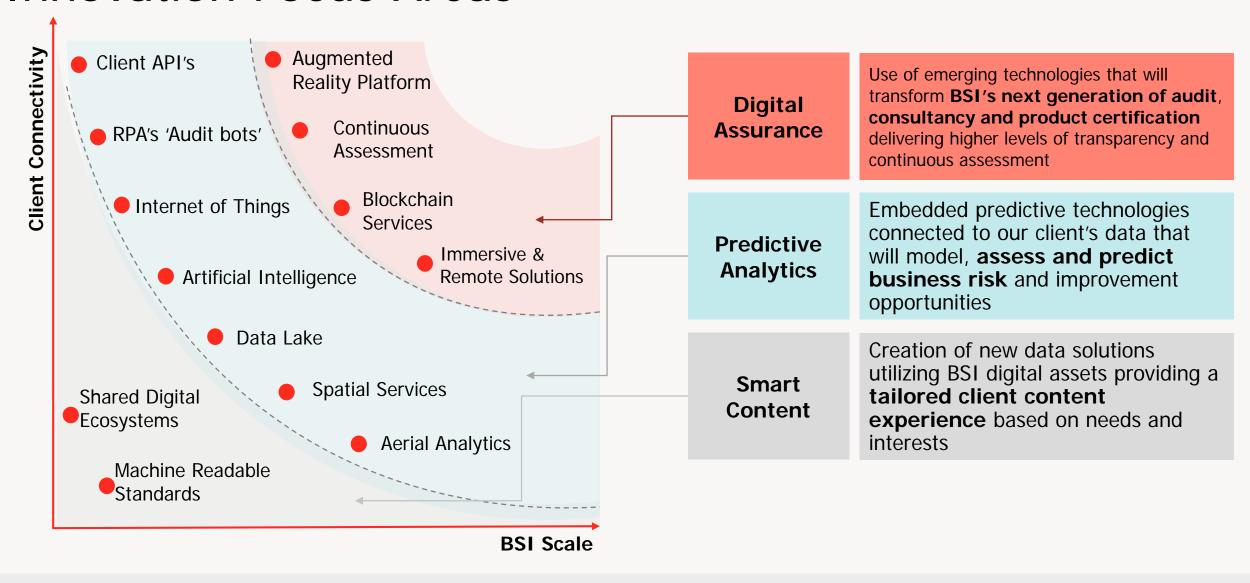

## **Innovation Focus Areas**

## Immersive solutions – suite of solutions

Level 1: Live Web Streaming Technology

- Live stream technology such as MS Teams, Web-Ex, Zoom
- Document, record, & procedure review
- Live interviews with your team

Level 2: Live Streaming with Mobile Technology

- Video applications on smart devices [phones and tablets] to immerse our audit team
- Enables virtual site tours to observe processes and activities

Level 3: Live Streaming paired with Smartglass Technology

- Fully immersed in the audit by using hands-free technology
- Equipment provided in advance of the audit
- Live feeds to our augmented reality platform

Level 4: Aerial Analytics with Drone, Satellite and Lidar Technology

- Allows a comprehensive view of sites above ground
- Aerial images are then processed by BSI for any non-conformities

### Office Based

Office based

Opening meeting
Review of documents
and records

Management interviews

80,000+ Days BSI Year to Date Audit Days Delivered with Immersive Technology

## **BSI** Xperteye

- BSI Xperteye is BSI's Augmented Reality (AR) Audit & Consultancy Platform
- BSI experts can connect to remote clients using laptops, smartphones & smartglasses
- Developed on request of clients who wanted to use Immersive Solutions for external & internal audits

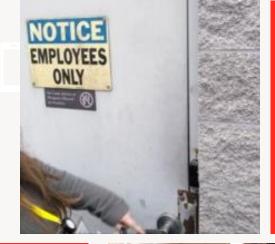

## Extending supply chain partnerships and transparency

# BSI Immersive Solutions Benefits

Enabler of game changing future Immersive Technology: Al Image Recognition, Computer Vision, Connected Client, Continuous Audit, Immersive Operations Center

#### Sustainable Development Goals Alignment

- Reducing carbon footprint (SDG 13 Climate Action)
- Employee Wellbeing

   work / travel
   balance (SDG 3
   Good Health and
   Well Being)

Gives client access to broad SME expertise can talk to one scheme auditor for an hour, a different scheme auditor for a different auditor

Can provide a more detailed digital report, complete with photos & video clips of noncompliance

## Aerial solutions

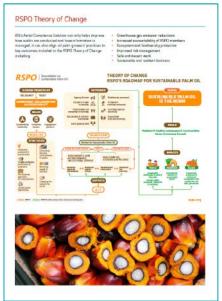

- Audit, Crop Management and Compliance Management SaaS solution
- Immutable, time stamped records & Lifetime Digital Remediation
- Time lapsed aerial data comparisons to detect land use change/deforestation
- Measurement and annotation tools (e.g. area, slope)
- Nutrient deficiency detection
- Tree counting and other Machine Learning processes
- Plot and measure High Conservation Value areas to ensure protection of biodiversity

## Future food safety auditor project

- Developing new food safety auditors is an ongoing industry challenge
- Incubator project initiated with AIFST and FIAL to establish a pathway for students for long term industry benefit
- Collaboration with universities, manufacturers, retailers, regulators, certification bodies, schemes
- New skills required for more connected, immersive and continuous auditing
